While we are sorry to lose such a good man, we rejoice that Dawson is the team to obtain him. Dawson is all right and we are more than willing to help it out all we can.

CHELSEA IN RUINS

15 Millions Go Up in Smoke --- Ten Thousand are Homeless

Boston, April 13.—Five persons are dead, 85 are missing, 100 are injured according to the last figures obtainable from the scene of yesterday's fire. The loss is estimated tonight at 15 millions.

Boston, April 13.—Five lives were lost, 10,000 people were rendered homeless and damage estimated at from eight to ten million dollars was done in a fire which destroyed the business district and a part of the

residence district of Chelsea, Mass., yesterday.

The fire started from burning rubbish on a city dump. Fanned by a brisk wind, it spread rapidly, and was soon beyond control. Before the flames were checked they had eaten through some of the best portion of the city.

Chelsea today is practically under martial law. Police and troops are patrolling the city, the public is kept out of the burned district and searchers are going through the ruins for more bodies.

Ten thousand persons rendered homeless, at least three burned to death, half a hundred injured and a property loss of between eight and ten million dollars summarizes the record of disaster which confronts Chelsea this morning as a result of the great fire of yesterday.

A blackened, flame-charred and smoking mass of ruins marking the sites of some of the finest public buildings of the city, historic churches, valuable factory and business structures as well as hundreds of houses, covers a belt three-quarters of a mile wide, stretching across the city for a distance of a mile and a half.

The town was not formally placed under martial law, but as a result of reports of shootings, the entire burned district and its environs were patrolled by marines from the Charlestown navy yard and sixteen companies of state militia, infantrymen and artillerymen. The soldiers were supplied with ten rounds of ball cartridges. Adjutant General William H. Bingham of the staff of Governor Guild had personal direction of the work of the militia. General Bingham said the situation did not require a proclamation of martial law, but that after consultation with Mayor John E. Beck of Chelsea, stringent measures were being taken to prevent as far as possible, any acts of vandalism.

Early today a consignment of military tents from the state camp grounds at South Framingham were placed at the disposal of the relief committee. Hundreds of them were set up on the public play grounds in Everett, an adjoining town town, while others were erected on open ground in the unburned portion of Chelsea itself. It was calculated that these tents, each of which will accommodate five persons, would serve to shelter about one-half the homeless people.
